Layers, Layers, Layers Photoshop layers are the primary building blocks of a composite image. Each layer offers a different element of an image and can be moved, rotated, resized, expanded, or shrunk. When layers are combined and layered, they create various effects, such as a glazed sunset, rain, or a foreground object in a picture. They can also be combined to create an image with multiple layers. Figure 16-7 shows a modified T-shirt design with a background layer combined with a separate layer for the shadowed part of the shirt

Photoshop Lightroom is a digital imaging software developed by Adobe, an alternative to Adobe Photoshop and other major graphics editing software like GIMP. It contains many features for photography, video, desktop publishing, graphic design and web design. In this tutorial we will explain how to save photos in Photoshop using the 'save for web' feature. Save for web: A simple way to save a photo as a web-friendly file A common misconception when it comes to Photoshop is that you need to be an expert in order to use the program. One of the most common tasks new users try to do is to create a new document in Photoshop and then save it to their computer. However, new users often forget that saving files to their computer is a completely separate operation and it should not take place before closing Photoshop. In this tutorial, you will learn that it is possible to save a file as a web-friendly format using Photoshop's "Save for web" feature. This task will be performed in six easy steps. Step 1 – Create a new document in Photoshop Step 1: Open the Photoshop file that you want to save for web in Photoshop. Step 2 – Go to File->Save As... Step 3 – Choose a file format. Save a web-ready file. For this tutorial, we are going to save the file as a JPEG format. Step 4 – Click on Open to go back to the main page. You can choose to save the new file into the same folder or a different folder. Step 5 – Save the file. When you are ready, click on the Save icon in the bottom right corner to save the image. Save for Web: An easier way to save for web If you have a Photoshop CC subscription, you can use the "Share" feature in the Creative Cloud to save a photo from a web-friendly file format. The "Share" feature has the ability to export photos directly from your Creative Cloud folder. It is very easy to use and you can even share it to a Facebook account without any hassle. Step 1 – Open Photoshop and go to File>Sharing Step 2 – Click on the Share button in the bottom right corner. Click the Open button to the left to allow the Creative Cloud software to open the folder where your photos are. Step 3 – Find the photo you want to share and click 05a79cecff

Question I have a large house that I didn't know was going to be built. I know someone working on it. The worker told me that they needed to pour concrete walls 8 inches thick in order to hold the ceiling. Will it be possible to have a steel frame installed inside the walls as it's being poured, so the weight of the house doesn't split my walls apart? Quick Links How can we help you? Posted: Thursday, August 29, 2013 at 7:50 p.m. ROY M. ANDERSON Associated Press Sports Writer TOWSON — Junior guard Dez Wells says he hasn't lost a game he played in the past three seasons and the senior forward has no intention of starting this season. "I didn't start our season to lose," Wells said Wednesday. Then he added, "We're on a three-game winning streak. It's a far cry from the first couple of weeks of the season." Wells dismissed reports that he was suspended for missing classes last season. Towson has won three straight NCAA tournaments, but last season's loss in the second round of the national championship game to eventual champion UCLA rattled Wells. "I was definitely disappointed and felt bad for the team," said Wells, who scored 12 points in the loss. "I felt like I could have done more. I felt I gave up on my teammates and myself at times
