Legend of Mana --------------------------------- "In the Age of Legend, the master of the Elden Ring has returned. Even now, before a thousand years pass, the world has already trembled at the sound of his sword. With the strength of the elder gods, Lord of the Elden Ring has returned. For those who love the power of the Elden Ring and won't rest till the end, welcome to the Land of the Elden Ring." TRANSLATED BY DOTHAR "The game is centered on a character called Tarnished, who is the game's main protagonist. Tarnished is a young man who wields the power of the Elden Ring to speak with the Elder Gods in the four cardinal directions of a battle map by summoning the Weapon of the Elden Gods by using a Skill acquired from battle. It is the game's main objective to survive by obtaining the power of the Weapon. The world is inhabited by monsters with an

element of magic called monsters that have their own parameters of attack. The battle is fought automatically. The fundamental strategy is to avoid damage. In the game, in addition to the traditional attack of defeating monsters by the characters, there is also an attack of summoning the Weapon of the Elden Gods by using a Skill acquired from battle. While attacking, the characters can attack on up to three times. You can special attack by defeating monsters with weak attacks. You can help your party members by giving them orders, which is similar to the chain command system of role-playing games. You can also obtain skills from defeating monsters. By using the skills obtained by defeating monsters, you can freely customize your characters, i.e., increase the characters' strength. You can easily understand the events of the story and enjoy the drama and excitement by progressing through various maps while continuing on to the next area."
