After the title screen, you can freely look around the room, where you'll find information about time and the level of the game. The left (on purpose) is the clock, right is the level. In the beginning of the game you'll find Alex in a cellar. He is sleeping. His dreams are coming true. He was dreaming to become a superhero - why? Because he can't accept the miserable life he has everyday. People say he's alcoholic, but he's not - he just wouldn't drink. His name is Alex, he's an ordinary man living in a big city. There are many things he would like to do, but without a strong will-power he couldn't achieve them. And now, he's going to accomplish his dream - he will leave the world he lives in, and try to achieve his dreams in another world. Sometimes it feels, like I'm on drugs, but it's real-life happening. It's not that good, but it's almost real. OK, I think it's enough talking - I will now show you the gameplay. You can move character by clicking on the map, you can inspect surrounding items (only recommended), and you can use your abilities by clicking on the choices menu. How to play: This game is in English. You should choose correct answer on every questions. Afterwards press the "Next" button to continue. You will find a lot of hidden easter eggs. How to find? Look closely. To find easter eggs press the "Show hidden items" button. Your first task is to find Alex's house. How to find? First, you should look for this character. You can view this from anywhere, but best for this is the beginning of game. In a cellar you will find Alex, and in his bag you will find a key. Use it to find keyhole, and you will find a picture of a keyhole. Take this picture, and look for something to light up (it would be better to use light source to help you). Afterwards press the "Show on map" button, click on the "Next" button and it's done. As the beginning of the game, I've prepared some situations for you, that will help you further on your adventure. Let's say you've been to Alex's house and found the key, now what? There are two places you can go. 1) The first way is to leave the house and continue your travel. Try to stay as close
